**RE: Approval of the revised April 2019 Risk-Based Closure Criteria for Remedial Activities
Technical Memorandum and the April 2019 Soil Gas Survey Work Plan
Pfizer Pharmaceuticals LLC Carolina Site (EPA ID: PRD091197301)**

Dear Mr. Gierke,

The U.S. Environmental Protection Agency (EPA) has reviewed the revised Risk-Based Closure Criteria (RBCC) for Remedial Activities Technical Memorandum and the Soil Gas Survey Work Plan (SGSWP), both dated April 8, 2019. The documents were prepared by Golder Associates for the former Pfizer Pharmaceuticals LLC Site located in Carolina, Puerto Rico. EPA considers that the comments issued by the Agency on February 20, 2019 regarding the previous draft of the RBCC and SGSWP have been addressed satisfactorily and incorporated into the final documents.

EPA is, therefore, granting approval of the April 2019 RBCC and SGSWP. If you have any questions regarding this matter, please contact geologist David N. Cuevas at (787) 977-5856 or through electronic mail at cuevas.david@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to be "C. Guerrero".
